

We are appalled that Sinclair Broadcasting will be using its power over 62 local stations to broadcast a documentary that is clearly biased against John Kerry. The program is scheduled to air shortly before the election without regard to a balanced and fair presentation of the facts or time to refute any accusations.

It is truly a sad day for us when journalistic integrity is lost to such obvious media partisanship. Please investigate this abuse of our airwaves to safeguard the public from this kind of biased programming by Sinclair. It is a threat to our access to quality information.

Thank you for your time; John & Carol Lawton
